

9G BARRIER NETS

BELLY-HOLD NETS

SMOKE CURTAINS

LINERS

MAINTENANCE, REPAIR & OVERHAUL SERVICES — MRO

AmSafe Bridport is your prime MRO provider for the on-going maintenance and repair of your textile safety equipment.

Services & Capabilities

Fleet:

- ✧ Airbus
- ✧ Boeing
- ✧ Bombardier
- ✧ Embraer
- ✧ Saab
- ✧ Sukhoi

Products:

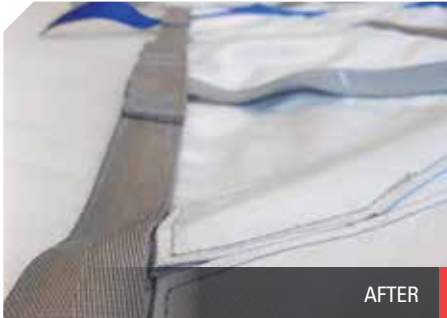

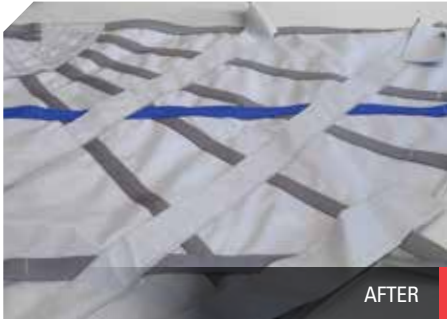

- ✧ 9G Barrier Nets
- ✧ Belly-hold Nets
- ✧ Belly-hold Panels
- ✧ Smoke Curtains
- ✧ Liners
- ✧ Sliding Carpets

As Original Equipment Manufacturer (OEM) for this range of products, you can be assured that all repairs use fully certified spare parts and original manufacturing processes, compliant with EASA Part 145 repair approvals.

BELLY-HOLD EQUIPMENT REPAIR

- ↻ 9G Barrier Nets
- ↻ Belly-hold Nets
- ↻ Smoke Curtains
- ↻ Liners

We will assess the damage on your belly-hold equipment and inform you of the work needed before we proceed.

Barrier Net Repair

As these nets have a finite life span, we have a range of options to ensure the continued airworthiness of this safety critical equipment.

Options Available

⊕ Periodic Testing

Test strap programme to confirm airworthiness.

⊕ Partial Repair

For nets with remaining service life, we can repair a segment or region of the damaged net ensuring compliancy for the remainder of the nets lifetime.

⊕ Re-web

We can replace all the textile elements of the barrier net, re-using the hardware and fittings. In this process we also replace the original test straps, enabling the periodic testing programme to continue for another life cycle.

Key Features & Benefits

Capability:

We support the requirements for almost every major operating airframe.

Solutions:

Our engineering expertise allows us to develop new repair schemes at the request of our customers.

Quality:

We ensure each repair is delivered with only qualified materials and excellent workmanship.

Service:

Our friendly, communicative customer service personnel keep you informed of your order status.

Meeting Customers Expectations

⌚ Time

Quality repair with the quickest turn around.

💰 Cost

Benefits of an OEM manufacturer for your aftermarket needs.

🤝 Collaborative Management Service

From quote to dispatch we will keep you informed of all the work taking place on your equipment.

🛠️ Capability

Manufacture with OEM design and Part Manufacturing Authority (PMA).

Our service centre network provides global coverage and comprehensive local support, with sites in the USA and UK.
