# MAINTENANCE REPAIR OVERHAUL SERVICES

AmSafe Bridport is an Original Equipment Manufacturer (OEM) for a wide range of quality assured safety, restraint, protection and comfort products for both commercial and defence sectors of the aerospace industry. You can be confident that we use fully certified spare parts and original manufacturing processes for all repairs, and ensure they are in compliance with FAA & EASA Part 145

repair approvals. AmSafe Bridport supports most major platforms, including both fixed wing and rotary wing aircrafts. With repair centers situated in the UK and the USA, we are able to meet your MRO requirements worldwide. Our quality high yield repairs often result in almost-like-new products, maximizing your initial investment and significantly increasing their in-service lifespan.

## WE PROVIDE MRO SERVICES FOR A RANGE OF PRODUCTS

### RESTRAINT

#### 9G BARRIER NET

We offer everything from minor net webbing repairs through to full re-web, as well as metalwork component replacement.

### RESTRAINT

#### BELLY-HOLD NETS

Our repair centres offer major and minor net webbing repairs, label replacements, as well as metalwork component replacement.

### SAFETY

#### ESCAPE SLIDE & OXYGEN CYLINDERS

We offer PMA approved alternative replacements to your OEM Oxygen and Emergency Escape Slide Cylinders.

### SAFETY

#### FIRE & SMOKE BARRIERS (FSB)

As the OEM, all of our FSB repairs are made with the same materials used in the original product manufacture.

### PROTECTION

#### CARGO LINERS & PANELS

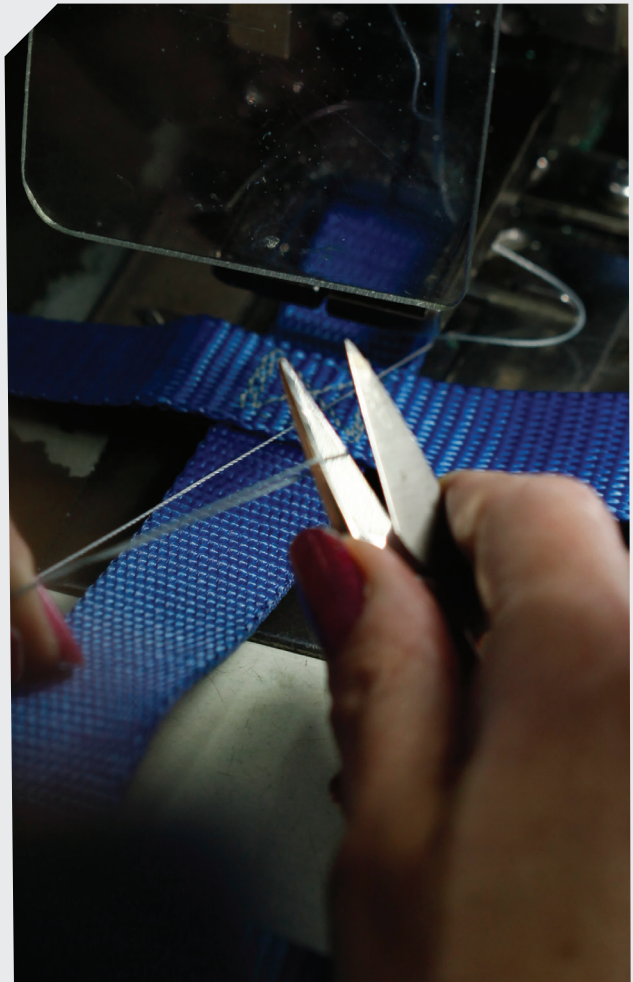

We offer almost 100% yield repairs for an extensive range of cargo liners and panels with the same materials used during original product manufacture.

# ABOUT AMSAFE BRIDPORT

We are problem solvers and solution providers, designing and manufacturing engineered textile solutions for the safety and securement needs of the global aerospace and defence markets. We specialise in engineering quality and innovative products that withstand high dynamic stress loads and provide safer, more efficient airframe restraints & barrier solutions, cargo handling & movement systems and RPG protection for armoured vehicles. With manufacturing operations and service facilities around the globe, we have the reach to provide solutions to our customers worldwide.

## OUR VISION

To be the market leader for cargo and vehicle protection systems worldwide, protecting lives and equipment, creating a business in which we all feel proud and valued.

# 1500+ PARTS ON OUR REPAIR DATABASE

We have over 1500+ parts on our repair capability database which can be searched via our website [amsafebridportMRO.com](http://amsafebridportMRO.com). Alternatively, if you can't find what you're looking for, or you would just like to speak to a member of our team you can contact us:

## Aftermarket Support

Our strategic partner Proponent will support all of your commercial aircraft aftermarket spares requirements for cargo restraint products such as bulk cargo nets, belly-hold nets and barrier nets. They also stock a wide range of AmSafe Bridport manufactured cargo hold liners and panels for commercial aircraft. Together, we support all of the major OEMs including Airbus, Boeing, Sukhoi, Irkut & Embraer.

In addition, AmSafe Bridport offer aftermarket spares for emergency Emergency Evacuation Slide and Oxygen Cylinders for Aviation. These can be ordered, and delivered directly to you from our team in the United States.
